## Work Experience

ADK Consulting, LLC, Boulder, Colorado

*Consultant/Owner, Jan 2001 – Present*

- Analyze network data to determine network usage, disk space availability or server function
- Configure and define parameters for installation or testing of local area network (LAN), wide area network (WAN), hubs, routers, switches, controllers, or related networking equipment
- Configure security settings or access permissions for groups or individuals
- Develop computer information resources for data security and control, strategic computing, and disaster recovery
- Modify existing databases and database management systems
- Document network support activities

## Additional Skills

- Years of experience in wide range of technical skills
- Extensive hands on knowledge of all modern O/S and network protocols
- Years of experience with remote sensing equipment data acquisition and analysis
- We don't need a rocket scientist to figure it out, but we have one!

## Education

University of Denver, Denver, Colorado

*PhD Physics, May 1987*

- Relativistic Electron Precipitations in a Pulsating Aurora
